

8420 EMERGENCY AND CRISIS SITUATIONS

The Board of Education recognizes its responsibility to provide for the safety and security in each school building in the district. The district will develop and implement comprehensive written plans, procedures, and mechanisms to provide for the protection of health, safety, security, and welfare of the school population; the prevention of, intervention in, response to and recovery from emergency and crisis situations; the establishment and maintenance of a climate of civility; and support services for staff, students, and their families.

“School security drill” means an exercise, other than a fire drill, to practice procedures that respond to an emergency situation including, but not limited to, a bomb threat, non-fire evacuation, lockdown, or active shooter situation and that is similar in duration to a fire drill.

The Superintendent or designee shall consult with law enforcement agencies, health and social services provider agencies, emergency management planners, and school and community resources, as appropriate, in the development of the school district’s plans, procedures, and mechanisms for school safety and security. The plans, procedures, and mechanisms shall be consistent with the provisions of N.J.A.C. 6A:16-5.1 and the format and content established by the Domestic Security Preparedness Task Force, pursuant to N.J.S.A. App. A:9-64 et seq., and the Commissioner of Education and shall be reviewed annually, and updated as appropriate.

A copy of the school district’s school safety and security plan shall be disseminated to all school district employees. New employees shall receive a copy of the school district’s safety and security plan, as appropriate, within sixty days of the effective date of their employment. All employees shall be notified in writing, as appropriate, regarding updates and changes to the school safety and security plan.

The school district shall develop and provide an in-service training program for all school district employees to enable them to recognize and appropriately respond to safety and security concerns, including emergencies and crises, consistent with the school district’s plans, procedures, and mechanisms for school safety and security and the provisions of N.J.A.C. 6A:16-5.1. New employees shall receive this in-service training, as appropriate, within sixty days of the effective date of their employment. This in-service training program shall be reviewed annually and updated, as appropriate.

The Board shall ensure individuals employed in the district in a substitute capacity are provided with information and training on the district’s practices and procedures on school safety and security including instruction on school security drills, evacuation procedures, and emergency response protocols in the district and the school building where the individuals are employed in accordance with the provisions of N.J.S.A. 18A:41-7.

Every Principal of a school of two or more rooms, or of a school of one room, when located above the first story of a building, shall have at least one fire drill and one school security drill each month within the school hours, including any summer months during which the school is open for instructional programs, and shall require all teachers of the school, whether occupying buildings of one or more stories, to keep all doors and exits of their respective rooms and buildings unlocked during the school hours, except during an emergency lockdown or an emergency lockdown drill. Where school buildings have been provided with fire escapes, they shall be used by a part or all of the students performing every fire drill. An actual fire or school security emergency that occurs at a school during the month and that includes activities which are the equivalent of a drill shall be considered a drill for the purposes of meeting the requirements of N.J.S.A. 18A:41-1.

Every school in the district shall conduct a school security drill within the first fifteen days of the beginning of the school year. Notwithstanding any other provision of law to the contrary, the school district shall ensure that a school security drill that occurs when students are present:

1. Includes clear, developmentally and age-appropriate messaging to students and staff at the conclusion of the drill that the event is a drill and that no current danger exists;
2. Does not expose students to content or imaging that is not developmentally or age-appropriate;
3. Is paired with trauma-informed approaches to address any student inquiries or concerns which may arise as a result of a school security drill;
4. Does not include the use of fake blood, real or prop firearms, or the simulations of gun shots, explosions, or other sounds or visuals that may induce panic or traumatic response from a student or school district employee;
5. Does not require a student to role play as a victim, but may include first aid training in which students participate; and
6. Is accessible to students with disabilities and mental health conditions, and provides all necessary accommodations for these students.

The Principal or designee shall provide written notification to the parent of a student enrolled in the school following completion of a school security drill, which notice shall be provided to the parent by no later than the end of the school day on which the school security drill is conducted.

The Principal or designee will provide local law enforcement or other emergency responders, as appropriate, with a friendly notification at least forty-eight hours prior to holding a school security drill. A law enforcement officer shall be present at a minimum of one school security drill in each school year in order to make recommendations on any improvements or changes to school security drill procedures that the officer may deem advisable in accordance with N.J.S.A. 18A:41-1. The school district may permit emergency personnel access to the buildings and grounds of its school for school security drills that are scheduled outside of school hours and during such times as students are not present.

The school district shall review and update its school security drill procedures using a process that coincides with the review of the school safety and security plan developed pursuant to N.J.A.C. 6A:16-5.1 and collects input from emergency personnel; parents of students enrolled in the school district; teachers and staff employed in the district; mental health professionals; and student government representatives from multiple grade levels.

The school district shall annually track data on such measures and information as required by the Commissioner of Education, and shall report the data to the Commissioner.

Such drills and in-service training programs shall be conducted in accordance with a building security drill guide and training materials that educate school employees on proper evacuation and lockdown procedures in a variety of emergency situations on school grounds in accordance with N.J.A.C. 6A:16-5.1.

The school district will be required to annually submit a security drill statement of assurance to the New Jersey Department of Education by June 30 of each school year. The school in the district will be required to complete a security drill record form as required by the New Jersey Department of Education.

R 8420 EMERGENCY AND NON-FIRE EVACUATION PLAN

The need for orderly and safe evacuation during certain situations is critical to the safety of the occupants of a school building. If such a threat is deemed immediate, credible, and reasonable, the Principal or designee may order a non-fire building evacuation. In the event the Principal or designee believes a threat does not exist or immediate evacuation is not required, the Principal or designee shall review the situation with the Superintendent, who may consult with local law enforcement officials to review the threat risk.

A. Procedures in the Event it is Determined a Non-Fire Evacuation is Warranted

1. The Principal or designee will immediately order a non-fire evacuation of the school building. The notification process may be the school's fire alarm system, a notice over the school's public address system, or any other method deemed appropriate by the Principal or designee to inform building occupants to evacuate the school building. The evacuation may be an entire or partial building evacuation depending on the circumstances.
2. The Principal or designee will:
 - a. Immediately call local law enforcement officials;
 - b. Immediately call the Superintendent;
 - c. Ensure any school buses enroute to the school or other vehicles entering the school grounds are redirected to a designated alternative location pending further instructions from law enforcement officials;
 - d. Notify and maintain contact with the Superintendent regarding the communication to be released to parents, community and media; and
 - e. Allow local enforcement officials to control the scene upon their arrival.
3. School staff members, upon receiving notice the school needs to be evacuated, will:
 - a. Direct students to gather personal belongings in the classroom or within their immediate area;
 - b. Instruct students not to use any electronic communication device until instructed otherwise;

- c. Close the windows and doors of their vacated rooms and turn off any light or electrical switch;
- d. Take the student roster and the day's attendance;
- e. Lead their class or the students under their supervision upon receiving the evacuation notice to the evacuation area;
- f. Take attendance when arriving at the evacuation area and report any additional students or missing students to the Principal or designee;
- g. Not allow any student to re-enter the building, leave the evacuation area, or be dismissed from school unless authorized by the Principal or designee or law enforcement officials; and
- h. Not speak to the media or permit media to interview any student.

B. Procedures After it is Determined the School Building Can be Reoccupied

- 1. The Principal or designee, upon a determination by school and law enforcement officials that the threat or risk is concluded, will direct the reoccupation of the building.
- 2. If it is determined the building is not safe to re-enter, the Principal or designee will notify school officials of the situation at the evacuation assembly locations. If it is determined students will be released for the day, the Principal or designee, in consultation with the Superintendent, will coordinate student dismissal procedures from the evacuation assembly areas and family notification and reunification protocols.
- 3. The school district will provide school district staff and other school district crisis response team members to provide counseling and support as needed.

Critical Incident Response Procedures for School Administrators, Faculty and Staff – The New Jersey Office of Homeland Security and Preparedness and the New Jersey Department of Education - 2010
